Petition to support Camp Springs Residents who oppose Northern Kentucky Sanitation District #1 Plans for Ash Street Pump Station and the Forced Sewage Main with Sole Purpose Pump Sewage Up From Silver Grove All The Way to Alexandria Treatment Plan

PETITION

The following people by their signature hereto oppose the installation of a forced sewer main from Ash Street in Silver Grove up Four Mile Road through Historic Camp Springs to move sewer to Alexandria Treatment Plant. I whole heartedly support the residents of Camp Springs efforts to protect its Historic Stone Homes, Scenic Trees and Barns and the sewer line should be moved to a more suitable location and will only support community leaders and political leaders that assist in this endeavor.
